

Consulting Services

A Positive Approach to Workplace Safety That Leads to Sustainable Results

Providing our customers with the premier resources to assist with the development and implementation of solutions that will dramatically and dynamically control risk.

How we do it

Consulting Services

DEKRA consulting services are completed by professionals who strive to create safer workplace solutions within every organization

Behavior-Based Safety Consulting

- Design, implement and optimize behavior-based safety processes
- Establish employee ownership and leadership structure for BBS program
- Advise on creation of BBS observation checklists
- Observation, coaching, feedback and creating team training
- Implementation of the Adaptive BBS™ Software for tracking, analysis and metrics, to foster improvement

CARES™ Survey

- Improve employee morale
- Reduce risks being taken by employees
- Better integration of safety into all facets of your organization
- Increased organizational communication
- Enhance employee participation in the safety process

Culture Assessment

- Focus group and individual interviewing
- Knowledge assessments
- Create a specifically tailored plan for execution based on assessment findings

Managing Safety & Leadership

- Educating managers on the need for both managerial and leaders skills
- Reinforcing the importance of the role of a manager in safety
- Creating an awareness of the “people skills” necessary to achieve improved safety performance
- Help managers to improve employee safety skillsets

Third Party Inspections

- Identify key areas for improvement within programs and processes
- Ensure efficient and effective controls are in place
- Evaluate methods used to achieve compliance
- Assess risk, efficiency and quality in your company
- Help to reduce risk and ultimately increase revenue

About Us

We are consultants and business partners to many of the world's largest chemical, oil and gas, transportation, utility, pharmaceutical, and agriculture companies. Through a transformational approach, we guide clients in evolving both their organizational culture and their operational environment, enabling them to reduce exposures and injuries, save lives, protect assets—and in the process, achieve higher performance.
