

Depend on DEKRA:

Heavy Truck and Equipment Condition Reports You Can Trust

A global leader in safety, DEKRA offers an unbiased and comprehensive inspection process to ensure the most accurate condition reports available.

Inspection reports are critical to assess the condition of heavy trucks at trade-in, end-of-lease or to support company acquisitions. As an independent and neutral third party, DEKRA provides a deeply comprehensive, unbiased condition report both the buyer and seller can trust. Our inspectors are experienced, certified diesel mechanics, and most are full-time DEKRA employees. This ensures consistent excellence across every report and every region.

➤ Your Trusted Partner

At DEKRA, our one and only goal is to provide an accurate condition report in a timely manner. We do not buy or sell equipment or offer repairs. When you work with us, you'll know the report you receive is impartial and precise. We do not offer our opinion—we only state the facts. Our unbiased approach makes DEKRA the most trusted partner for both buyers and sellers.

➤ Discover the DEKRA Difference

DEKRA has been a trusted name in safety since 1925. Today, we employ 43,000 people in more than 56 countries, including the U.S. As partners with the world's largest auto manufacturers, we specialize in testing, inspection and certification. Our mission is to drive safety at work, at home and on the road.

Awesome Advantages

Choose DEKRA to enjoy these valuable benefits:

Unbiased approach:

As an independent 3rd party, we provide the most thorough reports in the industry.

In-depth inspections:

We go beyond diagnostics. Our inspections include a full range of tests, such as a Figure 8, Snap, Cluster and an optional Forced REGEN.

Comprehensive reports:

Our detailed reports include photo documentation of key findings and a quality check before it's electronically sent to the customer.

Certified inspectors:

DEKRA inspectors are highly experienced, trained and certified diesel mechanics.

Wide-ranging services:

We offer all types of inspections, including trailers, buses, construction equipment, forklifts and re-inspections.

Unmatched expertise:

Each year, DEKRA performs more than 26 million technical inspections worldwide.
