

# Process Safety Management (PSM)

Put the power of  
Insight Via™ to work for  
your Process Safety  
Management

Efficiently implement the elements of  
PSM and RMP programs using the integrated  
suite of applications found  
only in the Insight Via™ Safety  
Management System.

AMMONIA

# How we do it

## Process Safety Management

The process safety management application helps organize and streamline the elements involved in PSM and RMP programs.

### Web Based Policy Manual:

- PSM/RMP policies available anywhere/anytime
- Control levels of employee access
- Establish document ownership
- Automatically version policies when updated
- Integrate policy related audits
- Establish notifications for policy review
- Upload Process Safety Information, links to external documents and forms

### Incident Reporting System (set up and track PSM related events):

- Process Hazard Analysis (PHA) findings
- Audit Findings
- Management of Change (MOC) requests
- Pre-Startup Safety Reviews (PSSR)

### Safety professionals available to assist with:

- Collecting and assembling Process Safety Information (PSI)
- Conducting Process Hazard Analysis (PHA)
- Drafting P&IDs and PFD
- Conducting Compliance Audits
- EPA Hazard Assessment (Off-site Consequence Analysis)
- Submitting RMPs to EPA

### Preventative Maintenance Application:

- Upload equipment data & specifications
- Establish work plans

### Training Application:

- Set up training programs
- Schedule and record training events

## About Us

We are consultants and business partners to many of the world's largest chemical, oil and gas, transportation, utility, pharmaceutical and agriculture companies. Through a transformational approach, we guide clients in evolving both their organizational culture and their operational environment, enabling them to reduce exposure and injuries, save lives, protect assets - and in the process, achieve higher performance.
