

# Safety Data Sheets (SDS)

## Easily store and access Safety Data Sheets

The ability to store SDS sheets in an online format for easy accessibility and organization for the whole company in one place.

# How we do it

## Safety Data Sheets (SDS)

The safety data sheet application will allow each location to easily access and manage safety data sheets associated with company requirements

### Features

- Access SDS's online in an easy to use company portal
- Manage sheets corporately to drive compliance for each location
- Sheets can be stored as files or links for ease of use
- Document uploads can be classified by language
- Managers can select specific sheets associated with their location
- Search capabilities available to quickly find documents in database
- SDS specific labeling
- Track review dates and reviewers by location and SDS
- Export option available for SDS list
- Track and generate reports by chemical or location
- Report subscriptions available

### About Us

We are consultants and business partners to many of the world's largest chemical, oil and gas, transportation, utility, pharmaceutical and agriculture companies. Through a transformational approach, we guide clients in evolving both their organizational culture and their operational environment, enabling them to reduce exposure and injuries, save lives, protect assets - and in the process, achieve higher performance.
