AQS Solutions Is Now DEKRA

Since its founding in 1925, DEKRA has been one of the world's leading expert organizations, with a mission of ensuring safety on the road, at work, and at home. The company currently employs around 44,000 people in more than 50 countries on five continents.

Established in 1989, AQS Solutions grew to offer a full range of innovative training services to every industry. AQS successfully participated in the RAB pilot project for ISO 9001 Lead Auditor

Training in 1993 and the ISO 14001 Lead Auditor Training in 1996.

AQS became part of the DEKRA group in 2016. DEKRA now offers a variety of services in North America, including management system training, management system certification, process safety training, automotive inspections, safety management software, and behavioral safety expertise.

Certification with DEKRA

Training clients are eligible to receive a discount on certification services from DEKRA

The DEKRA Difference

Expertise, experience in your field, a constant drive for service value, and the working methods and tools to make it happen. The DEKRA difference is in our approach to the assessment and certification process. DEKRA knows your business is more than just a spreadsheet filled with yes or no answers.

DEKRA utilizes a global network of experts who know how to ask the right questions and how to apply the answers and create useful business value from an audit.

See why over 99% of our customers recommend us!

Our Accreditations

- > ISO 9001
- > ISO 14001
- > ISO 20000
- > ISO 27001
- > ISO 45001
- > ISO 50001 / SEP
- > AS9100
- > AS9110
- > AS9120
- > IATF 16949
- > and more

Transferring an Existing Certification

Unhappy with your current Certification Body? DEKRA can transfer your certification in a short period of time. For most standards, including ISO 9001 and AS9100, there is no cost to transfer to DEKRA!

A company may transfer Certification Bodies anytime in the audit cycle. It is not necessary to wait until the current certificate is near renewal. The process is very simple:

- > **Off-Site Transfer Review**
 DEKRA will request the client to submit a copy of the current certificate, previous cycle audit reports from the previous registrar, and a copy of any non-conformance closures, if applicable, for review.
- > **Transfer Audit**
 An audit will then be performed for the upcoming event (renewal or surveillance) in line with your current schedule.
- > **Issuance of New DEKRA Certificate**
 DEKRA will issue a new certificate with your current expiration date within one to two weeks of the transfer audit.
